Dedication

MR. ROBERT KING

The yearbook staff dedicate this book to Mr. Robert King whose experience in graphic arts has helped make this year's edition much better. Since last fall he has improved greatly the graphic arts facilities to give us more opportunity to develop our skills in this field.

Administration.

LT. GOVERNOR,
RALPH G. STEINBAUER

MESSAGE FROM RALPH G. STEINBAUER,
LIEUTENANT GOVERNOR

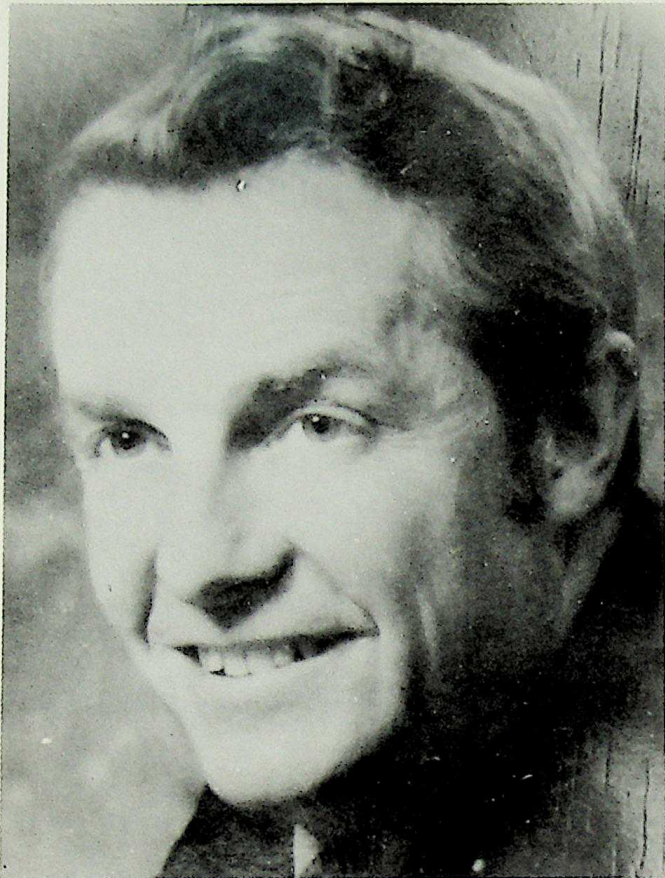

A yearbook is something that can be kept as a treasure and can in later years bring back some very pleasant memories of our school days.

It is a book whose pages can also give us inspiration to tackle and do the things that we may tend to think are beyond our capacity.

I would like to wish every student the very best in all your future endeavors.

Ralph G. Steinbauer

Ralph G. Steinbauer,
Lieutenant Governor.

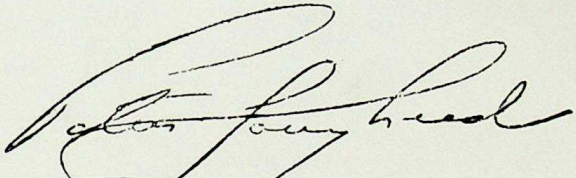

PREMIER PETER LOUGHEED

MESSAGE FROM PREMIER LOUGHEED

It is a pleasure for me to have the opportunity to contribute to the Alberta School for the Deaf Yearbook.

I know that I speak for the Albertans when I express our pride in the accomplishment by those with serious hearing handicaps. Your fine spirit, resourcefulness and strong determination in coping with and overcoming this type of disadvantage are to be admired, and I am sure that you will be a credit to yourself, your school and your community in the years ahead. To all of the students- the members of the graduating class and those who will be returning to continue their education- my warmest best wishes for happiness and success.

Peter Lougheed

MESSAGE FROM JULIAN KOZIAK,
MINISTER OF EDUCATION.

" Yearbooks have a very interesting quality! For who find a portion of their life documented in such a publication a yearbook, with every passing year, grows in value.

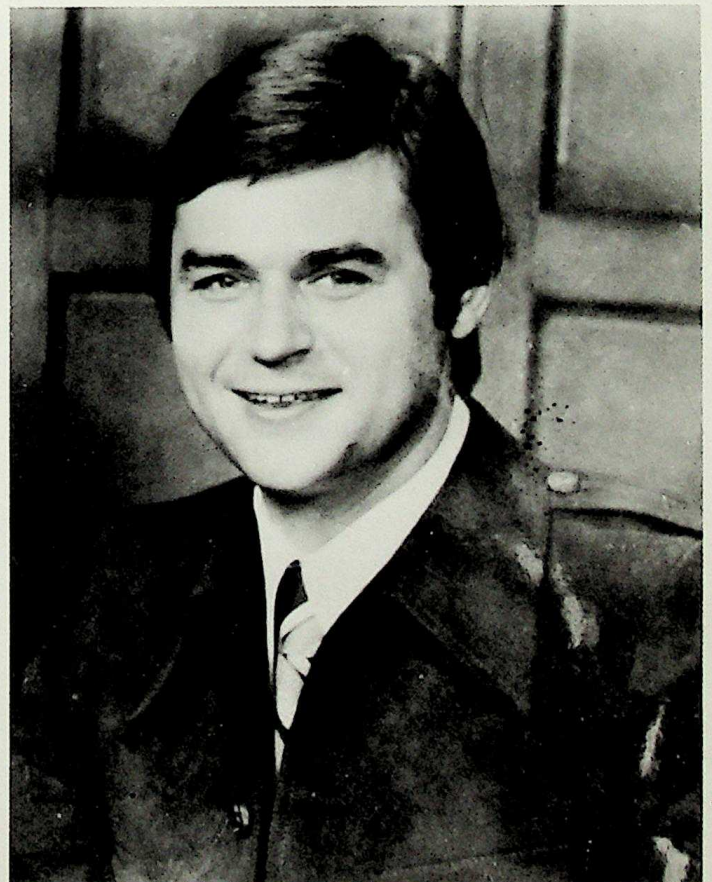

Many years from now, in the company of your children, and even grandchildren, you will recall the pleasant memories and experiences you shared with others at the Alberta School for the Deaf in the 1974-75 school term. Those whose artistic efforts and ingenuity are being dedicated in the publication of this yearbook are to be commended for their efforts.

My best wishes for every future success are extended to the students and staff of the Alberta School for the Deaf, and in particular, to the class of 1975. May all your ambitions be fulfilled."

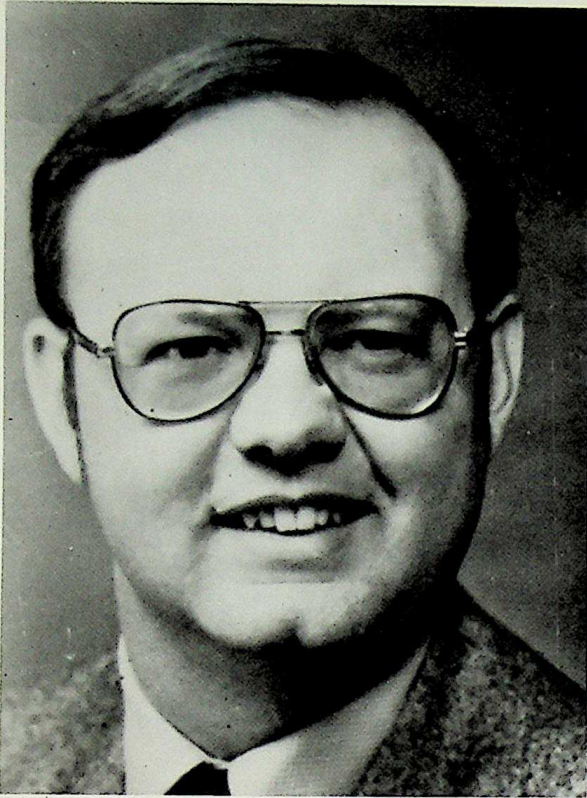

Yours sincerely,

Julian Koziak,
Minister of Education.

JULIAN KOZIAK,
MINISTER OF EDUCATION

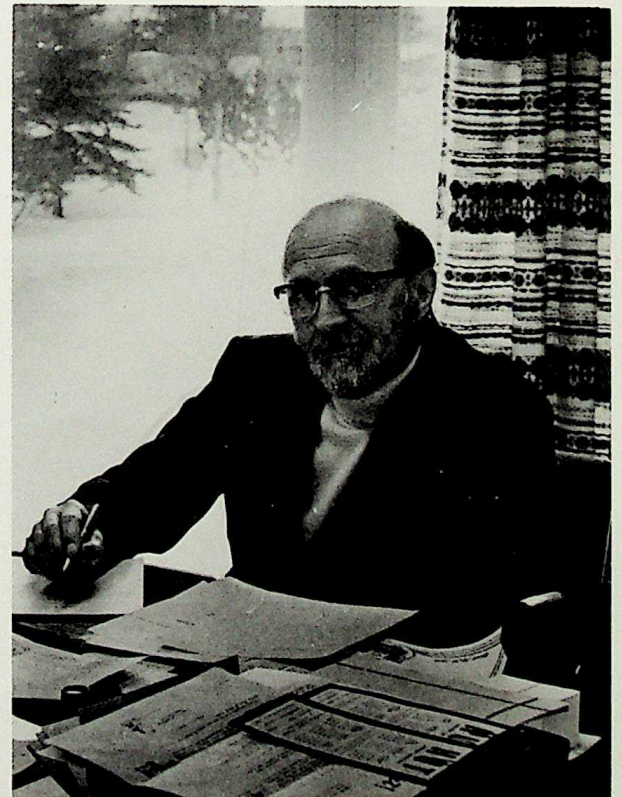

MR. K. BOESEN,
SUPERINTENDENT

At the end of a school year we usually sigh, and say "finished". But, education doesn't end with the closing of school. We are educated from each event in our lives. The Alberta School for the Deaf has provided an education to its students through classrooms, field trips, counseling, athletics, work experiences, dormitory activities, parties, interaction with other schools and in many other ways. When school is "finished" please do not stop learning. Use the education we have provided, and your intelligence to continue learning each day of your life.

Remember your school days with warm feelings. Come back and visit us often. Our school is not bricks and mortar, it is people. We will be happy to see you. See your picture here and remember your happy days at A.S.D. Remember too, that you are important to us always. We are interested in you and ready to help if we can. We have appreciated the opportunity of knowing you. In many ways you have contributed a part of your life to our school. Continue participating in, and contributing to your world, and you will be a truly fine citizen.

Best wishes for a life that will bring happiness to you and the people around you.

It is a pleasure to again have the opportunity to contribute to the Yearbook. With the passing of the year, many good things have happened and I am sure that those of you, who are leaving us this year will carry away some happy memories of those good times you experienced. I join with the staff and your fellow students in wishing our graduates peace, happiness and success in whatever they undertake to do. I know they will be a credit to themselves, their parents and the school. Congratulations and best wishes.

MR. P. FREEMANTLE,

Mr. Barker

Mr. Duncan

Mr. Knox

Mrs. Wood

Mr. Edwards

Dr. Gironella

Miss Trott

RESOURCE CENTER

1. Mr. Tom Edwards is a Consultant for Rehabilitation and Job Placement. He is responsible mainly for guidance and counselling administering achievement tests and works in class liaison between the various vocational schools within the public school system and the Alberta School for the Deaf. As a member of the Resource Centre Mr. Edwards participates in various workshops throughout the province of Alberta.

2. Dr. Oliva C. Gironella, the school psychologist, supervises the diagnostic and assessment work of the Resource Centre. She administers psychological tests. Students are referred for testing by the teachers and the job placement officer. She visits schools and classrooms to assist teachers in the educational process of the hearing impaired children in regular classroom settings. She visits homes to assist parents on questions regarding the management of their children.

Being knowledgeable in the field of child psychology she gives talks to parents groups, professionals, and other interested individuals. She also does counselling with students. She also coordinates the workshops held at the School for the Deaf every Spring time.

3. A major development this year was the increased number of talks given to classes in the Edmonton Separate, and Edmonton Public Schools, about hearing loss and communication. Miss. Trott spoke to all grades, from kindergarten to Grade 12, and found the teachers and students very interested and eager to learn signs.

With her colleagues, Dr. Gironella and Mr. Edwards, Miss. Trott took part in two workshops, one in Vermilion, and one in High Level.

A number of hearing impaired students from different parts of Alberta, have been referred to the Resource Centre for educational assessment, and this has kept us very busy. Miss. Trott has also visited schools and homes in various areas of the province, including Calgary, Three Hills Lac la Biche and Red Deer.

Several interesting visitors and an opportunity to be on the TV Program, Morning magazine, have helped to make this a stimulating and busy year.

Mrs. Cole
Hearing Aid Consultant

Mrs. Engel
Librarian

Miss Glasier &
Miss Laferriere
Nurses

As we come to the close of another term, we look back and ask ourselves if our job has been well done. The questions that I ask myself are... Did the students have a studios, progressive year? Were we all working together as one well-coordinated team? Were the houseparents able to provide a learning living experience as much as possible in the same manner that the natural parents would provide this experience. I am proud to say that staff and students worked well together. Together we had many new experiences, faced many hardships and overcome many obstacles. It has been a good year. To those leaving we say Good-bye, Good Luck and may God go with you. To those who will be returning, both staff and students, we say have a good rest and lets make the next year just a little better than the last year.

MR. ROSELL
Dean of Residence

Miss K. Stone Mr. M. Youngs

MR. CECCHETTI
Food Service Supervisor

FOOD SERVICE AREA

1974-75 has brought several changes to our area- Mr. J. Sande, our meat cutter retired and we were forced to replace him with a new electric meat saw which we also named " JOHN "

Mrs. M. Staben has transferred to Red Deer to be nearer her family.

We are pleased to announce the appointment to our staff two charming ladies, Mrs. Clara Gerlach and Mrs. Helen Dueck. We welcome them to A.S.D.

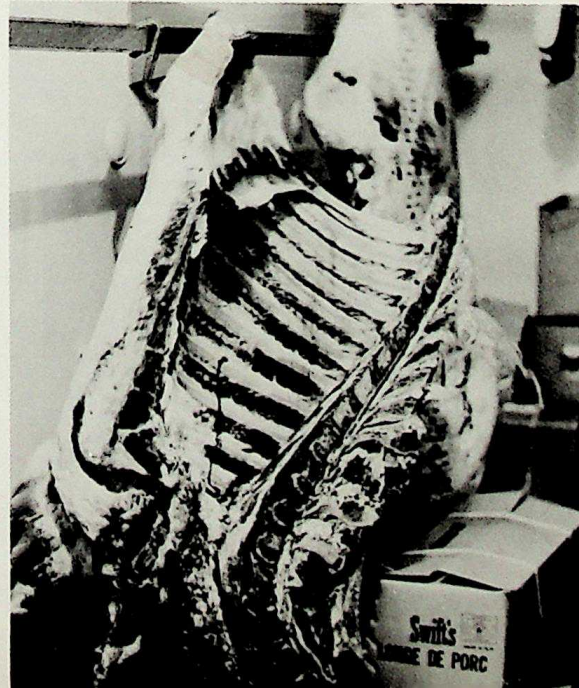

Our duties remain much the same as previously: meals for students and staff; work experience on paid basics for several students; work experience program on a Vocational base for the Public School System.

We have found that our catering service has greatly increased and with an increase in student population we have been kept very busy.

We take this opportunity, again, to wish the best of luck to all students, particularly the graduates, May they find success and happiness in their future.

JR. WING TEACHERS

Mr. Stroud

Most of our students spend their first six years at Alberta School for the Deaf in the Junior Wing. Language and Communication Skills are a very important part of our program. We are looking very carefully at the new Apple Tree Language Program that was developed to teach language to deaf children. Two of the Junior Wing Staff attended an Apple Tree Workshop in Vancouver, and the entire staff attended another workshop here.

One of the highlights of the year was the arrival of our first three FM Phonic Ear Systems. By the end of this term, we expect that all classes in the Junior Wing will have a Phonic Ear System. This is some of the best auditory equipment available and it will help our speech and auditory training programs.

Our individual speech therapy with assistance given by Speech Pathology students from Rehabilitation Medicine has been continued and we now have students for both fall and spring terms. We have also had a number of University of Alberta Education students for individual and group work in our area.

Our Sensory Integration Remediation Program is continuing. We now have 3 students every morning to help the Occupational Therapist who started the program last year.

The Parent Workshops in Sign Language are now held every Friday afternoon instead of every other Friday.

We have had a number of exchanges with other schools for both staff and students. We have also started an In-service Staff Development program which has included practical help for the classroom in such areas as: preparing materials for the classroom and teaching speech in the classroom.

This has been a very busy but a very interesting year, that has also been most productive.

MR. MASON
Teacher Supervisor

Hello students, especially the yearbook staff. We want to thank you for giving us this opportunity to extend to you our warmest congratulations for your determination to publish a yearbook again.

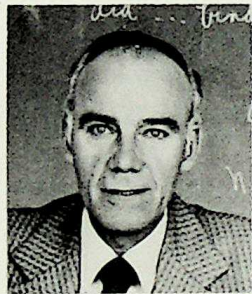

Maybe you think that yearbook work is hard and tiresome, but remember that this kind of work allows you to acquire valuable skills in several areas, including those of technology and social interrelationship.

Your contribution of time and energy for the "SILENCE" project is very much appreciated by all of us.

Yearbook

It is a pleasure to write this message to all you readers. I am mighty proud of this yearbook, which is much improved, and am grateful for the work done by my staff. I also want to thank Mr. King, our advisor.

Graduates, we have worked hard to make your last school year more memorable with this beautiful publication.

I thank my staff again for their willingness and interest in this project. Best wishes go to future yearbook editors for much success in their work.
